### OUR GROWTH IN BRIEF

It is with pleasure our annual report for the year 1966-67 is presented to Albertans. It reflects a year of satisfactory progress. Two new Branches – Castor and McLennan – were added to our chain, with plans laid for several other Branches for the near future.

You will note from the charts provided, new highs were achieved in deposits, in loans, in numbers of customers and in revenue. A net profit of \$1,713,946 was made, up from a year ago by \$219,537. As has been our custom for the last several years, one million dollars of our profit was remitted to the General Revenue Fund of the Province. The remaining \$713,946 was added to Reserves.

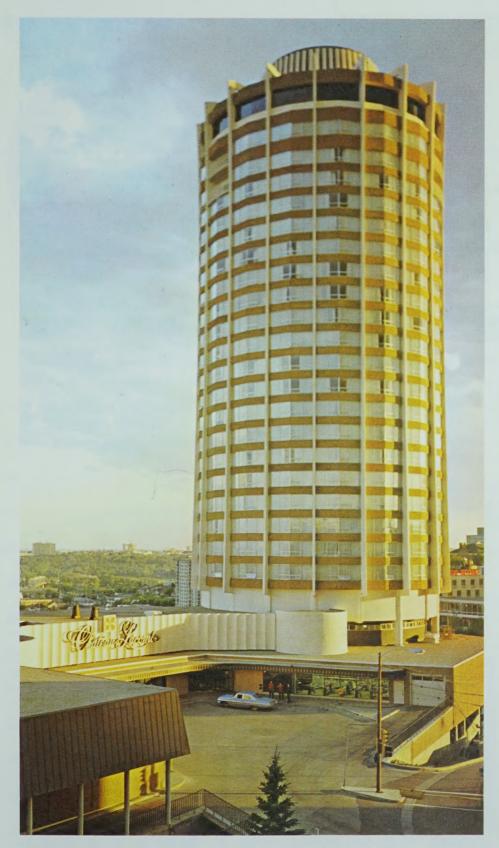

During the year under review Treasury Branches, like most businesses, faced higher operating costs. Furthermore, interest rates on savings deposits have risen and the need for higher revenue is becoming evident. Our policy will be to remain highly competitive, but at the same time we must be realistic and operate at a profit commensurate with services rendered and risks involved.

During the year under review the provincial economy remained buoyant. Home construction was down due to "tight money" but in the year ahead should pick up considerably. The need for housing in most areas of the Province is very great.

Our operations during the past year were sustained by a very loyal and hard working staff. My thanks to them for a fine effort which was much appreciated. Our staff is our greatest asset, and I know in the future they can be counted on to carry us to new and higher goals, and that we shall continue to warrant and receive the support of Albertans.

Edmonton's impressive Chateau Lacombe is symbolic of Alberta's dynamic progress. Treasury Branches are proud to be playing their part in this exciting development.

### REPORT OF THE PROVINCIAL AUDITOR

I have audited the books and records of the Treasury Branches for the year ended March 31st, 1967. The branch balance sheets as at March 31st, 1967, certified by branch managers, were examined and consolidated with Head Office records. Transactions applicable to the year reported after preparation of branch statements are not reflected in the accounts.

Currency on hand, cheques on chartered banks and items in transit were certified by branch managers. The balance on deposit with the chartered bank was verified by certificate from the bank.

Loans and advances include loans outstanding, overdrafts in depositors' accounts, bills discounted and items in overdue bills as at March 31st, 1967.

Advances totalling \$44,268 were written off during the year under review while recoveries of advances previously written off amounted to \$4,336. Provision of \$713,946 for estimated loss re loans and advances was made during the year under review leaving the accumulated provision at \$4,791,731 as at March 31st, 1967.

#### Investments are summarized hereunder:

	\$45,596,487	\$45,478,910
Improved real property		67,219
		\$45,546,129

<sup>\*</sup>Includes bonds of a par value of \$492,000 held for the Contingent Liability Fund and of a par value of \$30,000 held for the Insurance Fund.

Bonds, debentures and agreement were verified by examination, with the exception of bonds of a par value of \$1,000,000 which were confirmed by certificate from the Bank of Canada. Titles to improved real property were examined. Investments were found to be in order. The approximate market value of bonds and debentures as at March 31st, 1967 was \$40,365,000.

Expenditures for operation of the Treasury Branches have been charged to the General Revenue Fund of the Province, with the exception of an amount of \$480,739, representing consumers' bonus for the months of February, 1941 to April, 1945, inclusive and the required provision for estimated loss re loans and advances. The former may be financed from the fund for contingent liabilities while the latter has been provided from revenues of the Treasury Branches under authority of Ministerial Order dated March 1st, 1960.

Subject to the foregoing, I certify that, in my opinion, the attached Balance Sheet is properly drawn up so as to show the true financial position of the Treasury Branches as at March 31st, 1967, according to the information and explanations given to me and as shown by the books of the Treasury Branches, and the accompanying Statement of Revenue and Expenditure correctly sets forth the result of operations for the year ended at that date.
